EXPERIENCE

Crosby Studios, New York City – Web Developer

(Contractor) March 2021 - April 2022

Created mock-up advertisement pages for the company. Created personalized web pages promoting the company's products/events.

I was responsible for meeting strict deadlines and making sure that what I create falls under the design principle that Crosby is known for.

Tyler Billinger, New York City – Web Developer

(contract) - Feb 2021

Created SPA portfolio website for the well known designer Tyler billinger. (As of March 2022. The website is currently offline but the github source code is still available to be read).

Inflectra, Washington D.C. – Junior Fullstack Dev

(Internship) Aug 2017 - Nov 2017

Revamped Inflectra's intranet employee portal and created a modern UI from scratch with a simple user authentication for users to access the 'library'.

Cypherbreak, New York City – Fullstack Web Developer

(personal project) Aug 2022

Created a fullstack web application using the MERN stack along with using Redux-toolkit as the application's state manager. I created this application for users to register/login to access the user-generated database of breakdance events that are happening. Users are able to create and post events.

EDUCATION

General Assembly, Chicago— Fullstack Web Development

Dec 2015 - Feb 2016

Completed and received a "Certificate of Completion" for the bootcamp.
